

Designer Brianne Bishop's repeat clients asked her to design a newly-built home for their growing family, in the thick of the pandemic, and the home was ready just as the couple welcomed a baby. Bishop created a warm, elegant, and modern kitchen and dining area with a range of brown shades from deep, dark chocolate to walnut to blonde. The moody space is lit by pendants from **Palecek**, through **CAI Designs**. A full range of appliances from **Thermador**, including a range, double steam ovens and refrigerator make this a truly functional space for the growing family. PHOTOGRAPHY BY ANTHONY TAHIER

Designer Brianne Bishop helped a young couple design their new two-bedroom, West Loop condo. In the powder room, a glowing paper lantern illuminates a classic wallcovering from **Osborne & Little**.

PHOTOGRAPHY BY ANTHONY TAHIER

The team at Rebel House Interior Design worked with the architect and builder on this ground-up project in Winnetka, Illinois. In the powder room, the **Ethnicraft** vanity's glimmering brass details echo the mirror, lighting, and antique brass finish of the **Brizo** faucet. Wallcovering by **Phillip Jeffries**.
